Month:11 Day:21 Hour:12:50

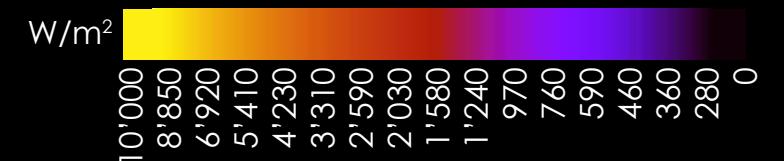

11/21 12:50 Looking South - Central Convergence

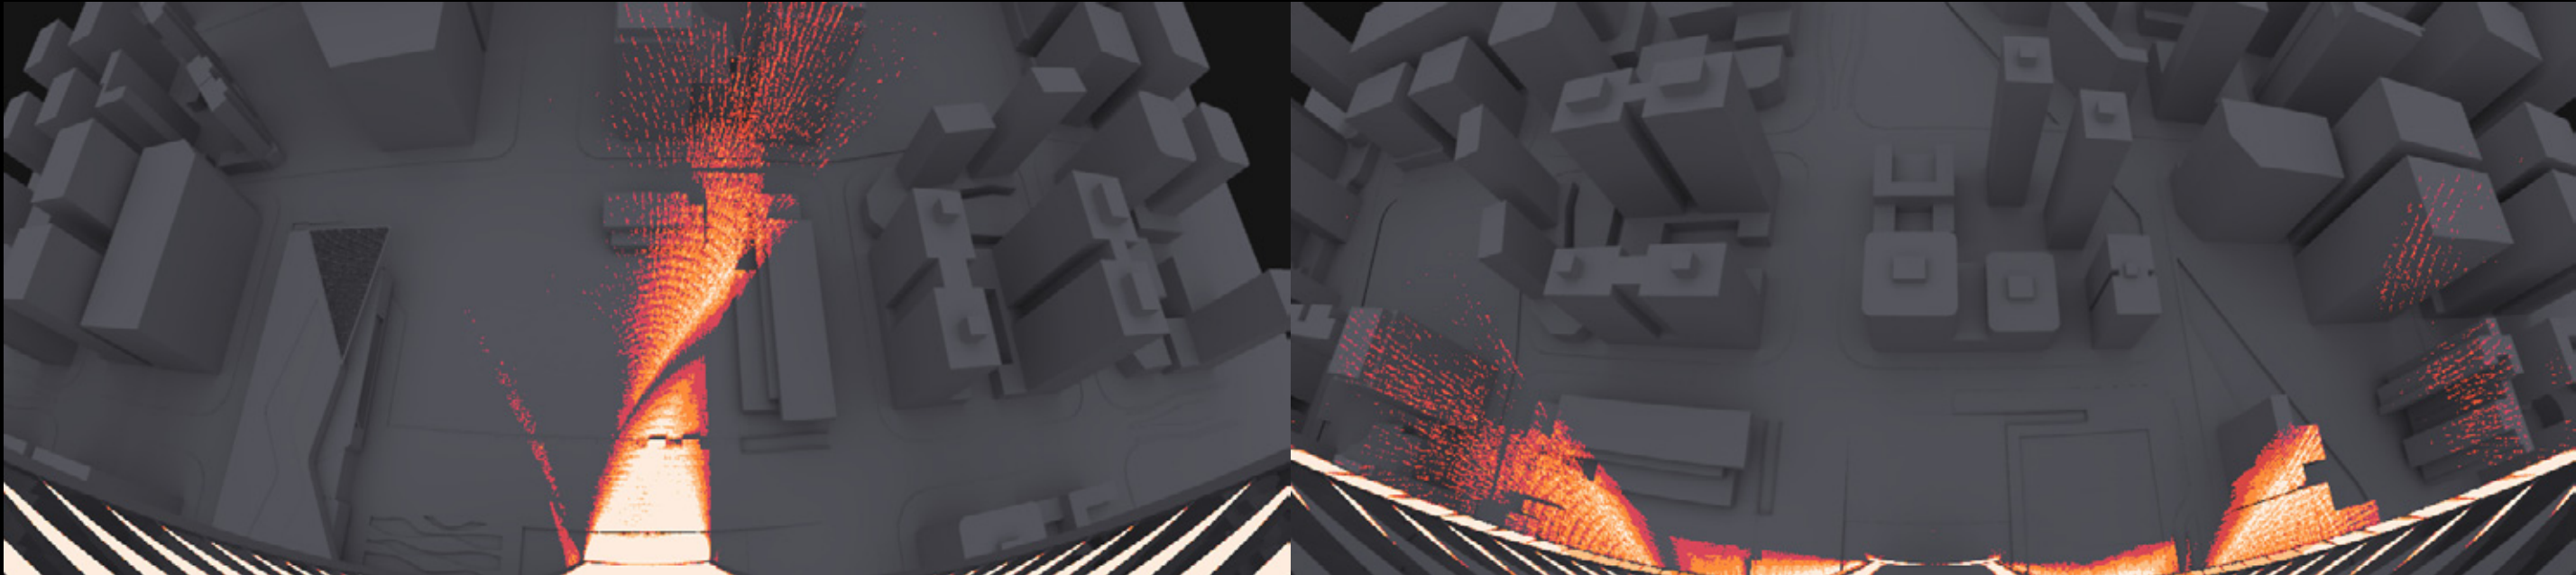

Month:11 Day:21 Hour:12:50

11/21 12:50 Looking South - Central Convergence

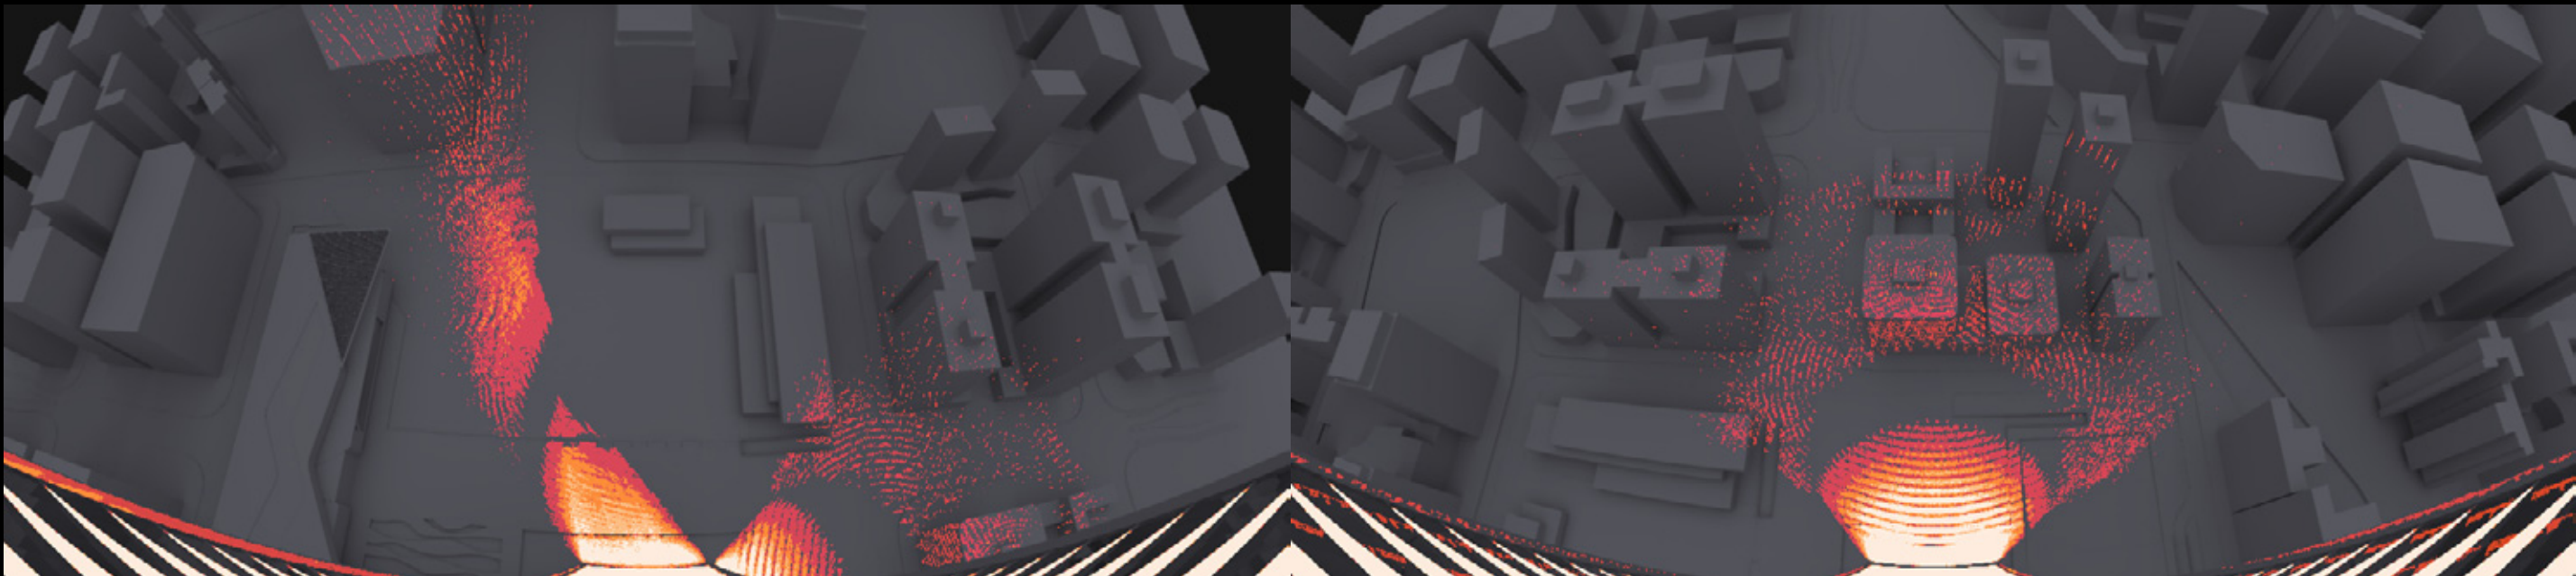

Looking East

Looking South

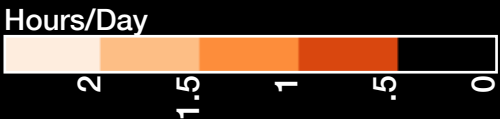

June 21

October 21

NOTE: These Images are composites of 10 minute interval frames which show the duration of reflected light on a typical day. Images do not account for intensity.

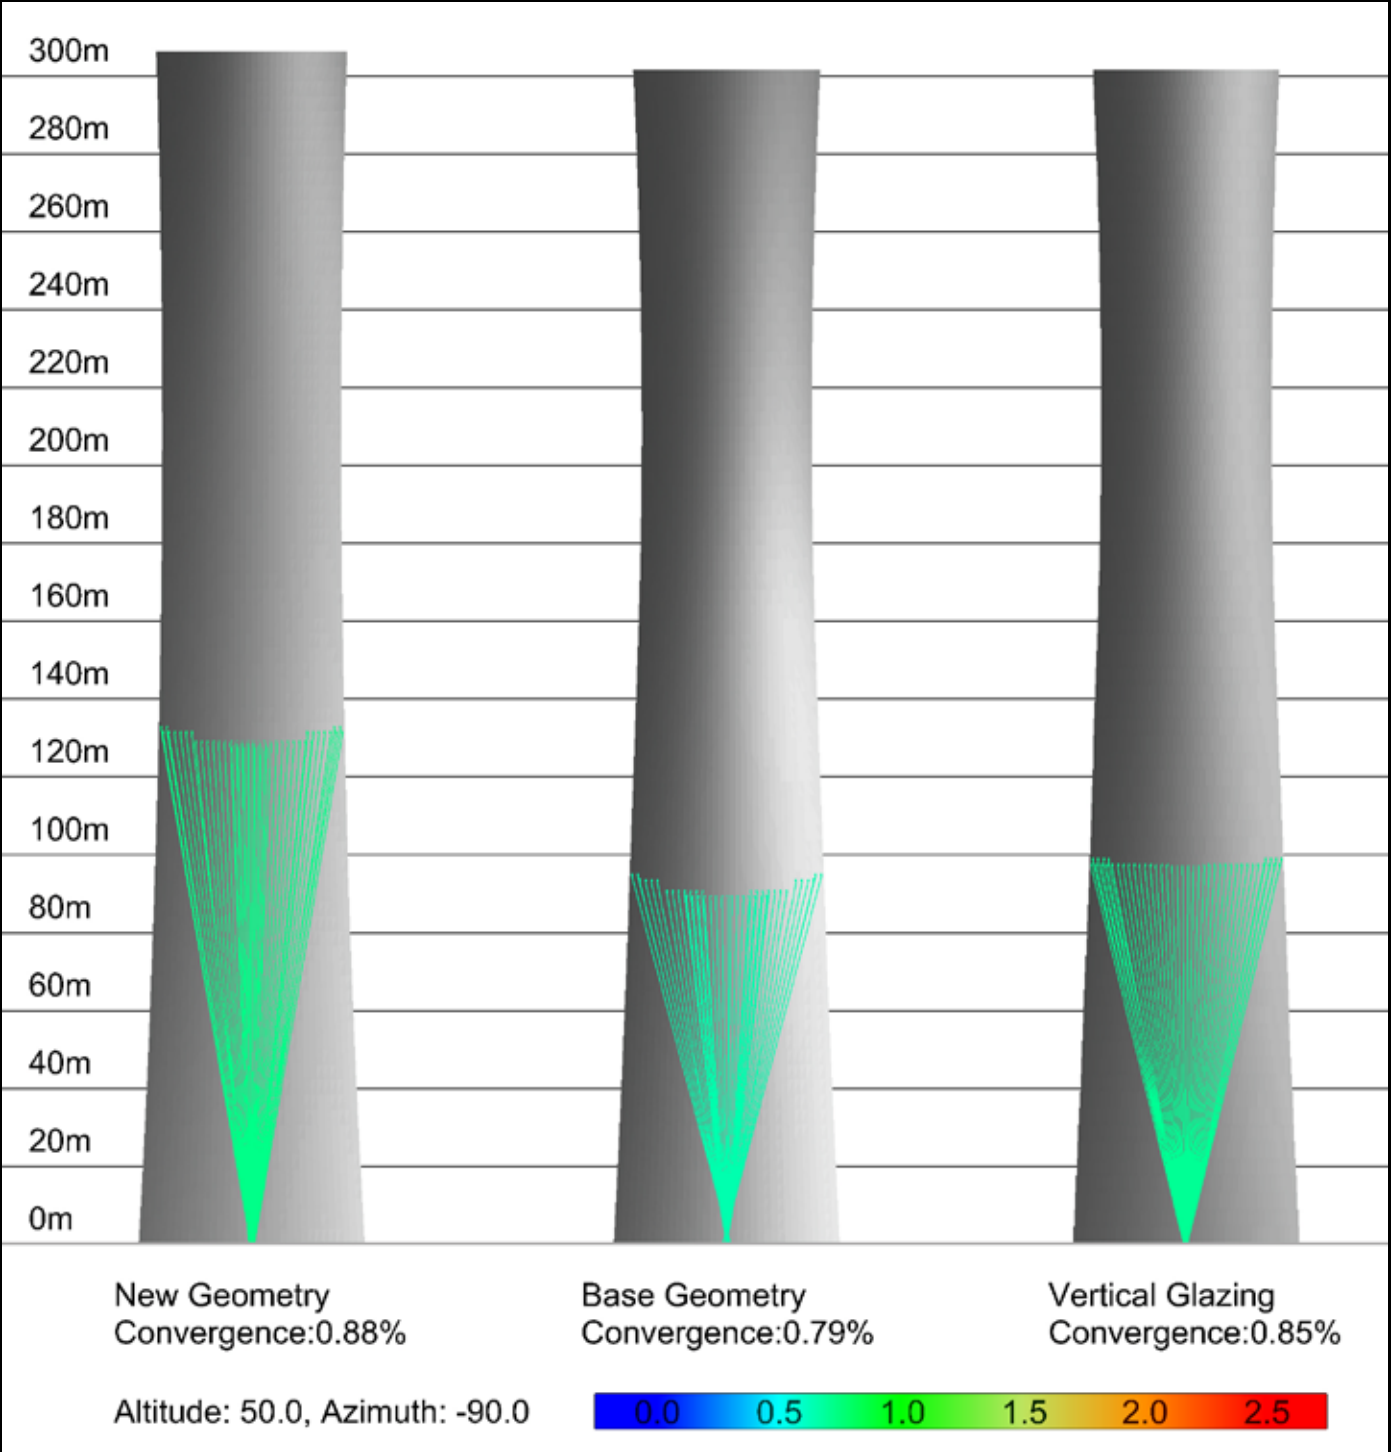

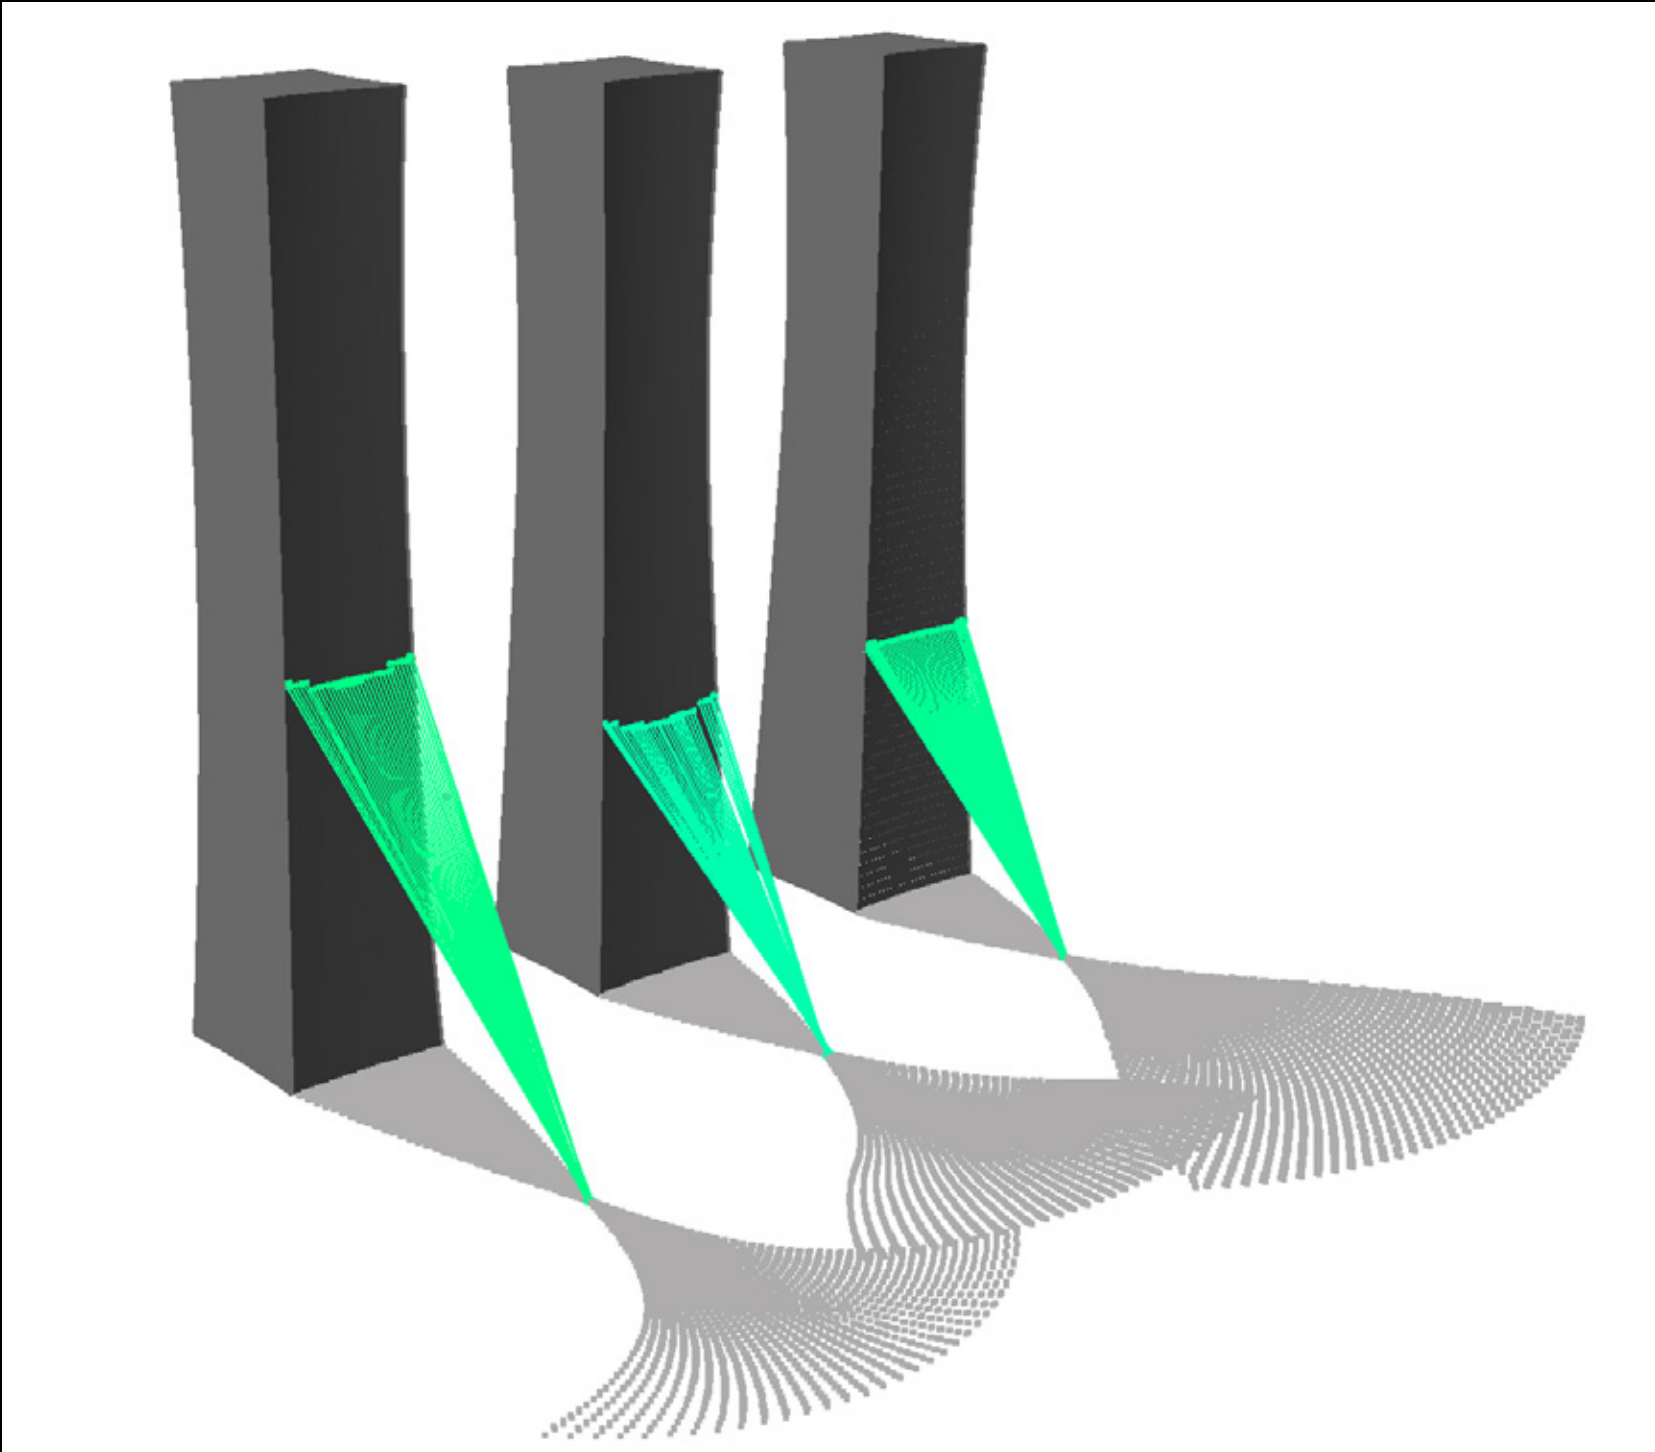

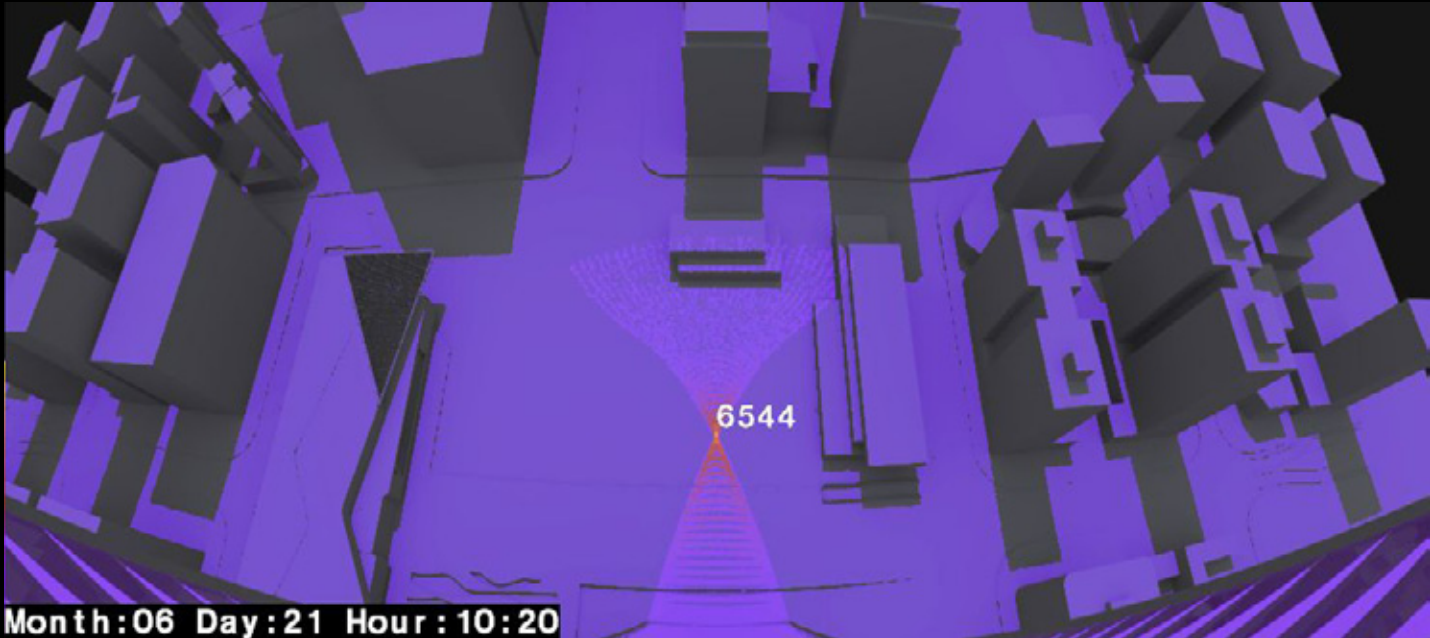

Change Building Form

Manipulate Facade - Change Glass Orientation

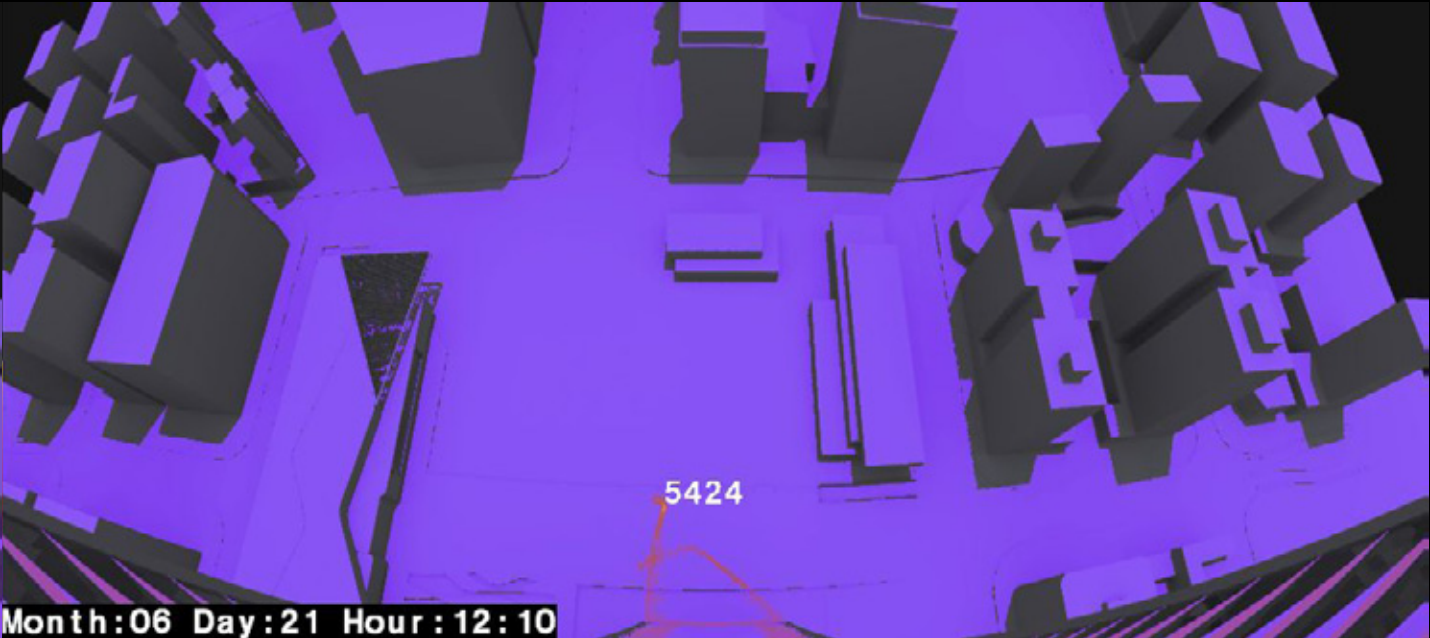

Change Glass Type - Lower Total Solar Reflectance

Adjust Exterior Shading

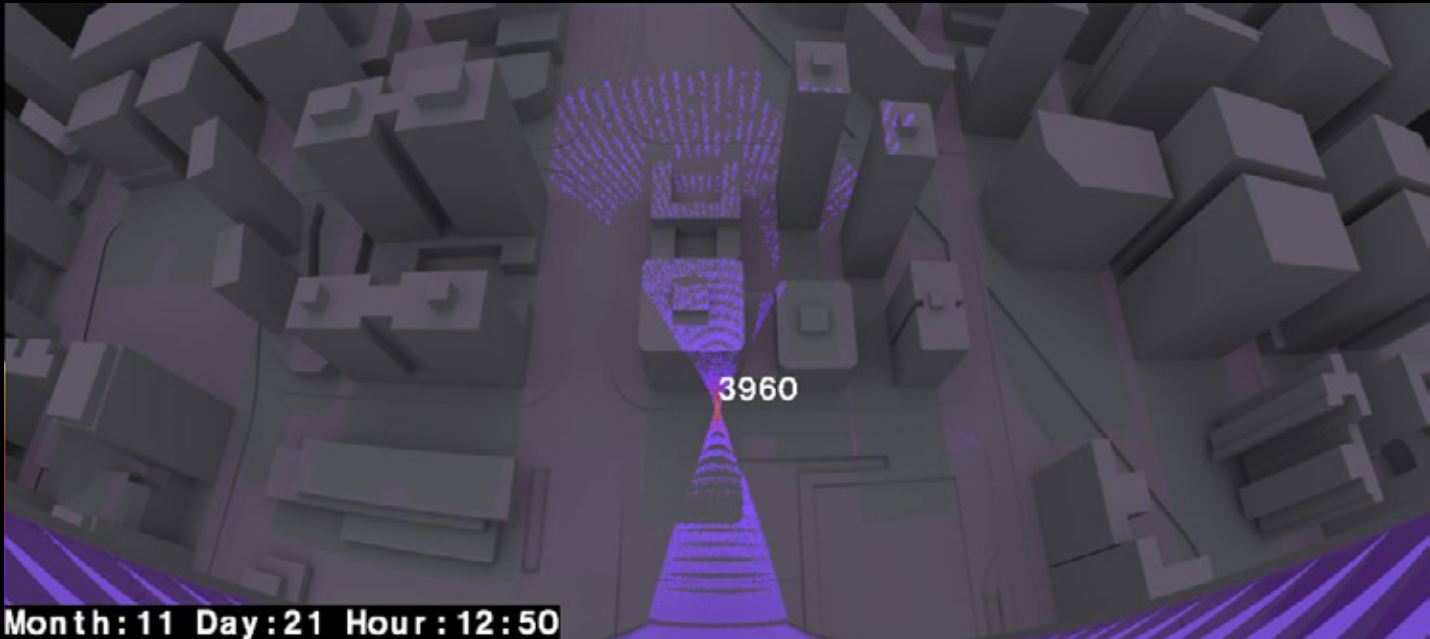

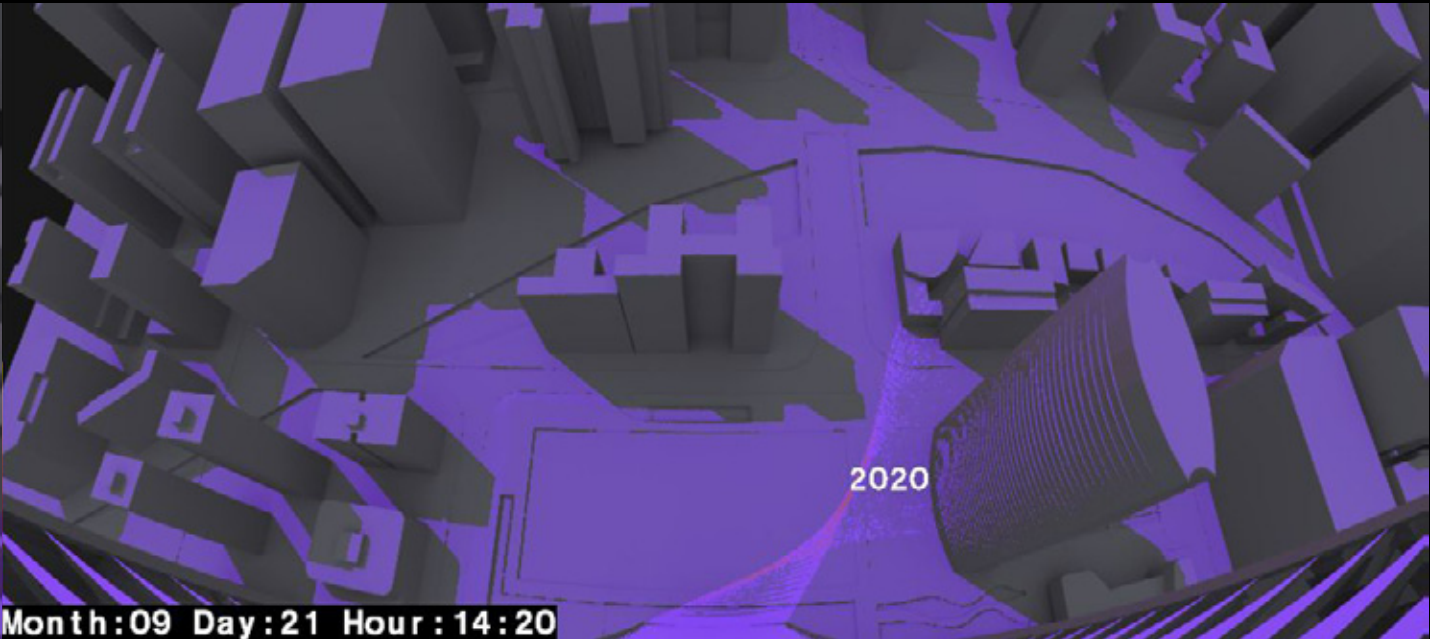

Month:06 Day:21 Hour:10:20
06/21 10:20 Looking East - Central Convergence

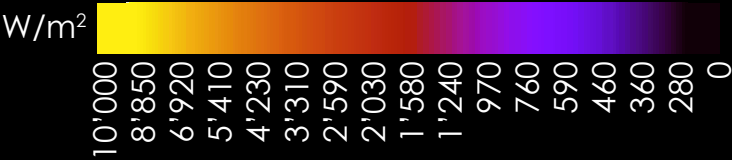

Month:06 Day:21 Hour:12:10
06/21 12:10 Looking East - Edge Convergence

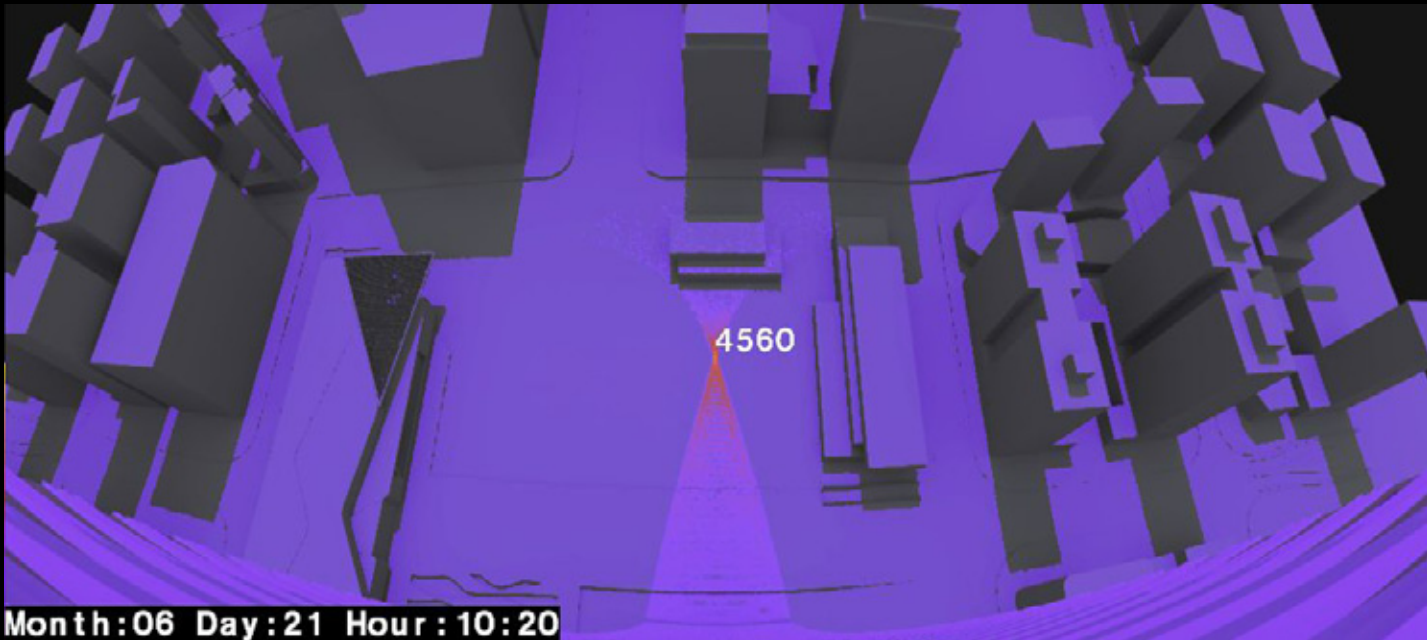

Month:11 Day:21 Hour:12:50
11/21 12:50 Looking South - Central Convergence

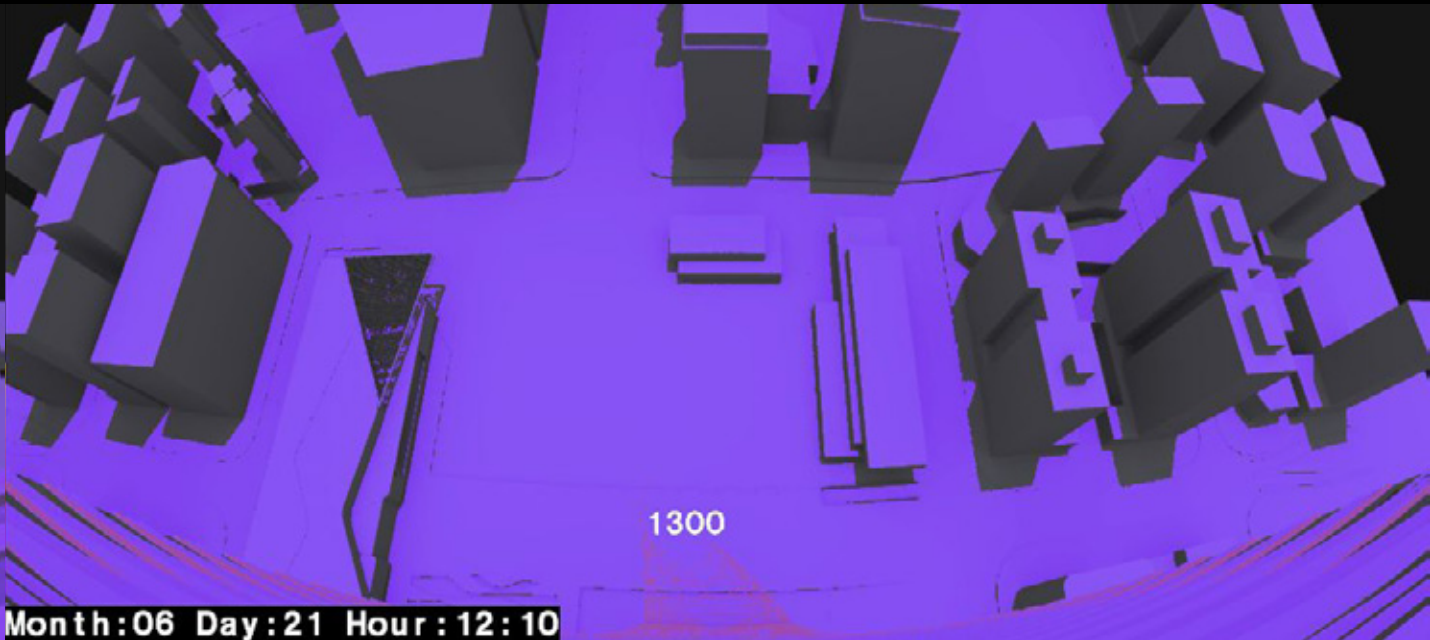

Month:09 Day:21 Hour:14:20
09/21 14:20 Looking West - Intermediate Convergence

Month:06 Day:21 Hour:10:20
06/21 10:20 Looking East - Central Convergence

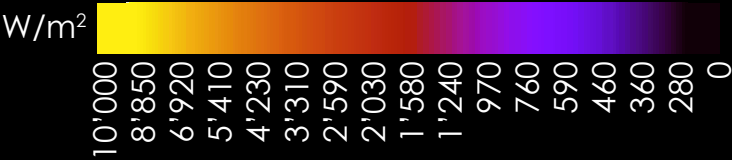

Month:06 Day:21 Hour:12:10
06/21 12:10 Looking East - Edge Convergence

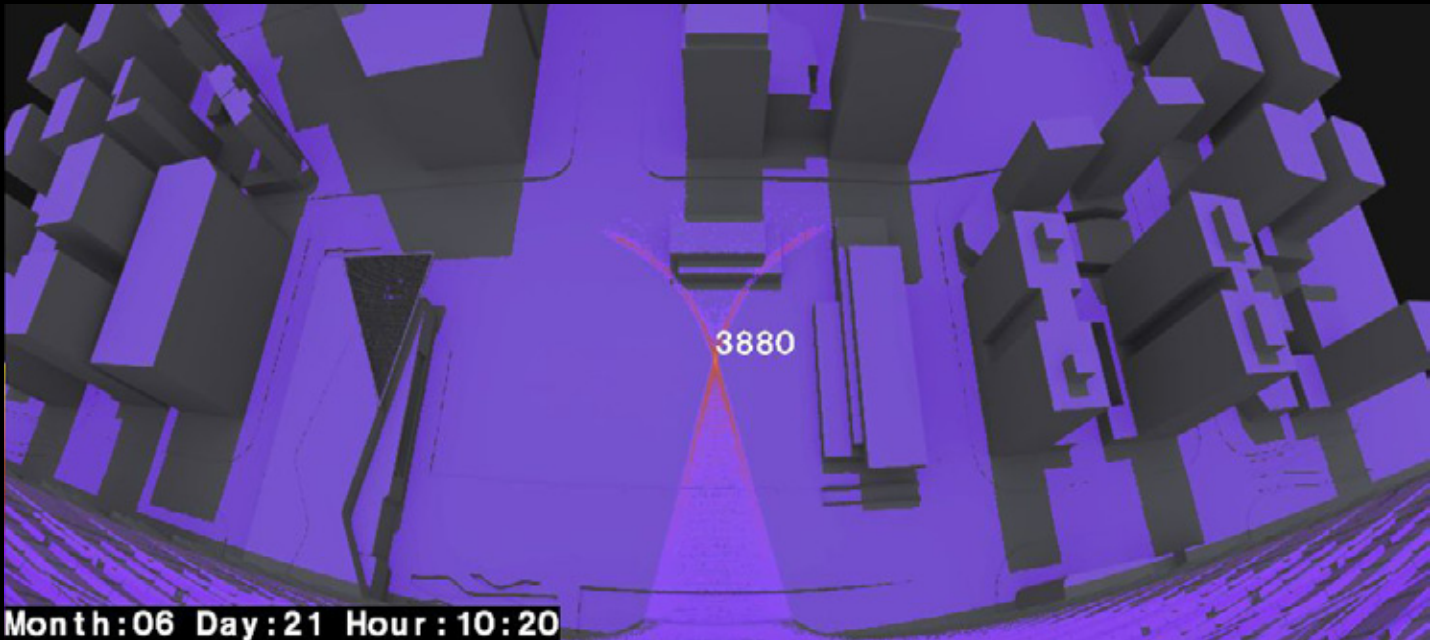

Month:11 Day:21 Hour:12:50
11/21 12:50 Looking South - Central Convergence

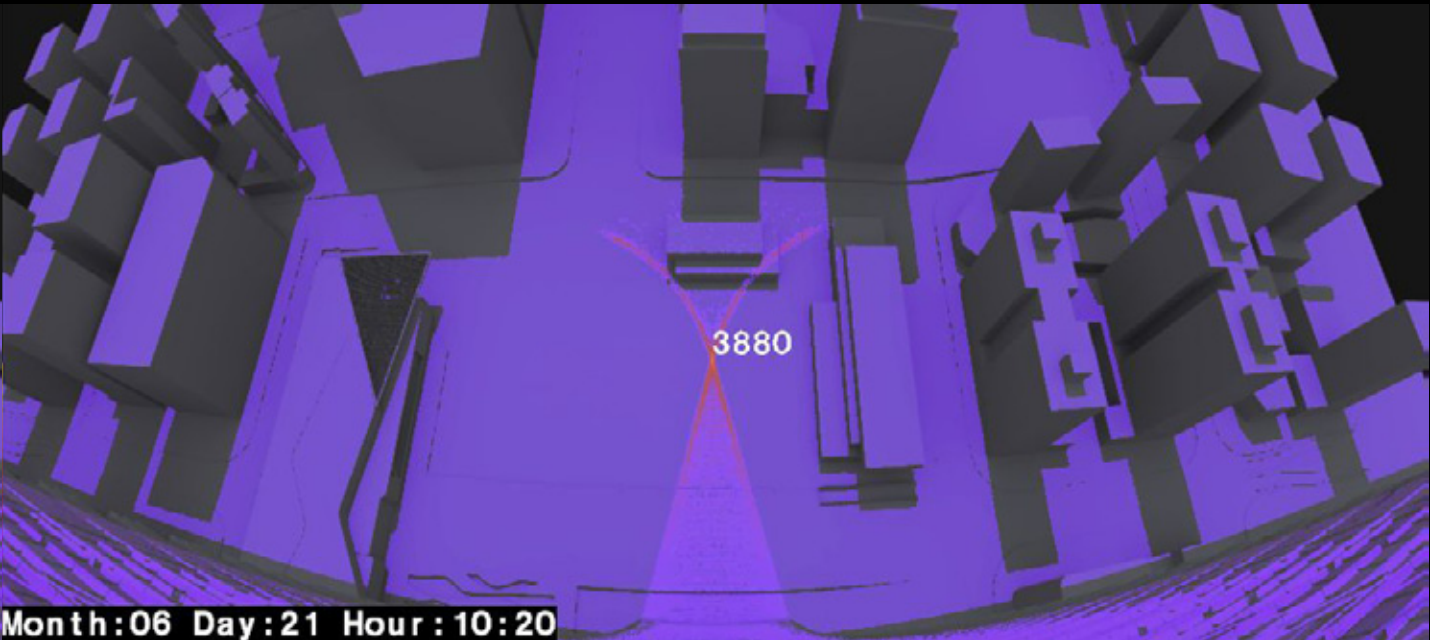

Month:09 Day:21 Hour:14:20
09/21 14:20 Looking West - Intermediate Convergence

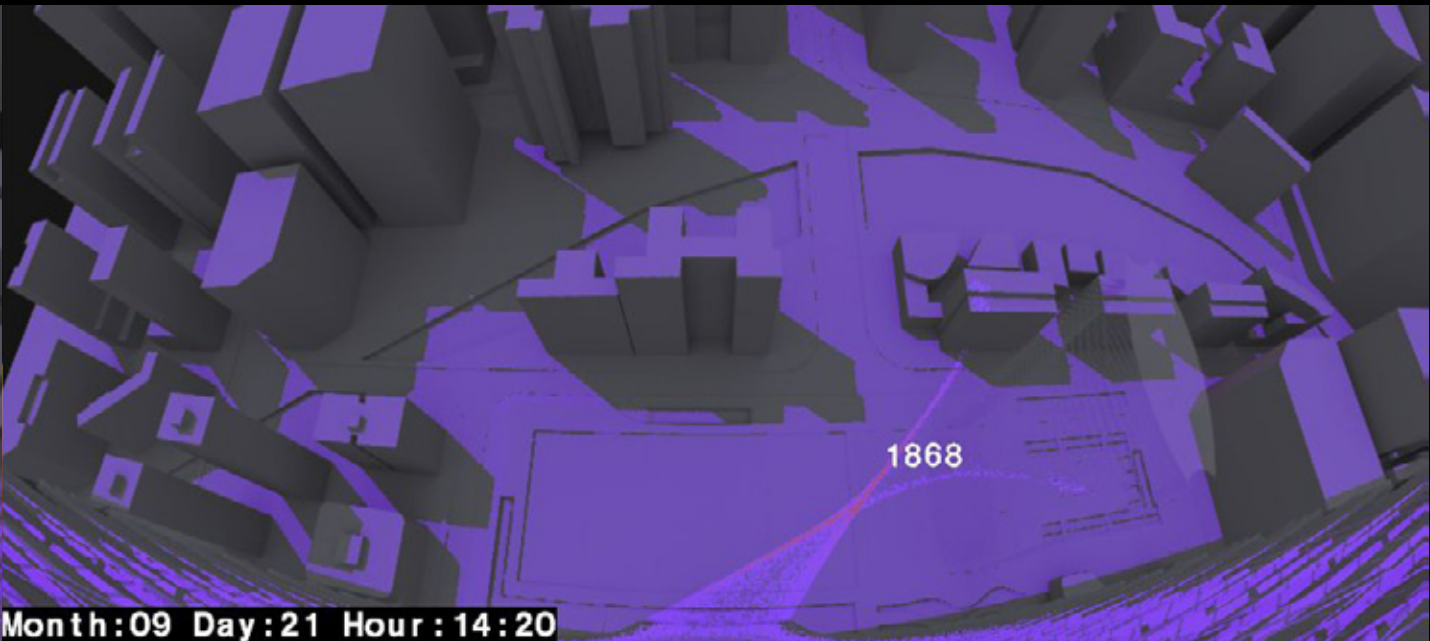

Month:06 Day:21 Hour:10:20
06/21 10:20 Looking East - Central Convergence

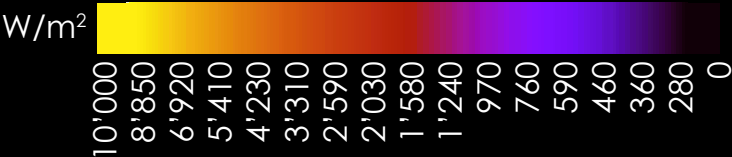

Month:06 Day:21 Hour:10:20
06/21 12:10 Looking East - Edge Convergence

Month:11 Day:21 Hour:12:50
11/21 12:50 Looking South - Central Convergence

Month:09 Day:21 Hour:14:20
09/21 14:20 Looking West - Intermediate Convergence

Original Glass:
VNE16-63: Starphire, **55% !!!** reflective of total Solar Energy

Glass Types:
VE11-2M: Blue, 8% reflective of total solar energy
VE2-2M: Green, 10% reflective of total solar energy
VE19-2M: Grey, 16% reflective of total solar energy

VE2-2M: Green, 10% reflective

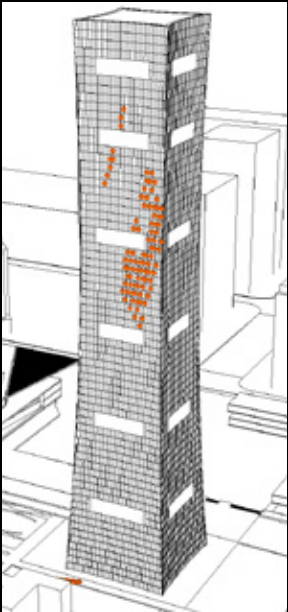

Month:07 Day:21 Hour:13:40 Alt:78 Azm:35

VE19-2M: Grey, 16% reflective
